

Features

- Max. core: 12
- Small volume, light weight, stable structure
- All dielectric, anti-lightning strike, anti-electromagnetic interference
- Superior mechanical and environmental performance

Applications

- Aerial installation
- Duct installation
- Indoor access

Installation performance

- Min. bend radius: installation 20D, operation 10D
- Temperature range: storage -40~+70°C, installation -20~+60°C, operation -40°C~+70°C
